## POWER HOUR WITH LANA

If you want me to dip into your social media accounts for an hour and answer all your burning social media questions, then this is for you!

If you have been using social media for your business for a while, and just need a fresh perspective, then this is perfect for you. I can look at your content, your bio, engagement levels and come up with some practical quick wins for you. We can talk about content ideas, reels, hashtags, monetisation, how to win new clients - whatever you want!

If you're just looking for a boost, some fresh ideas and some top tips, then I will share everything I can with you. Perfect for a one off, or whenever you feel like you need a bit of inspiration!

Once you have booked your power hour I will send you a brief questionnaire before our chat to give me some background, and we'll schedule your hour session at a time convenient for you.
